Hope

24/7 services for persons experiencing mental health or substance abuse crises

RSI offers 24/7 services for Wyandotte and Johnson County adult residents (18 and older) who are experiencing mental health or substance abuse crises.

Individuals can walk into RSI for services; be brought by friends or family members; or be accompanied by law enforcement. We're here to serve adults dealing with mental health issues and/or alcohol and drug problems. We are not equipped to handle medical or surgical emergencies. **For medical care or in a life-threatening situation, persons should call 911 or go to the nearest hospital emergency room.**

RSI services

Depending on a person's needs, RSI offers the following services:

- **Sobering Unit** for persons with substance abuse issues; brief stay no longer than 10 hours. We offer recovery support and assist consumers in accessing additional treatment services.
- **Crisis Observation Unit** for up to 23 hours to allow a person to calm down and for symptoms of mental illness to ease up. We help connect consumers to community mental health centers for follow-up services.
- **Crisis Stabilization Unit** for short-term stays of up to 10 days for persons requiring service over a longer period of time before transitioning to community-based care.

Our goals

Our primary goal is to respond to needs of adults experiencing mental health and/or substance abuse crises. RSI works to:

- Resolve immediate concerns and connect consumers with community-based services.
- Reduce the number of unnecessary hospitalizations of persons in these situations.
- Reduce the number of persons unnecessarily placed in jails due to mental health or substance abuse problems.

RSI partners

- Wyandot Center
- Johnson County Mental Health Center
- Heartland Regional Alcohol and Drug Assessment Center
- Kansas Department for Aging and Disability Services

RSI helps

- Individuals seeking relief from mental health or substance abuse crises.
- Families in search of convenient, community services for their loved ones.
- Law enforcement officers by providing a one-stop center for follow-up to crises.
- The community that has an important resource to enhance quality of life.
