

## 2015 Resident Satisfaction Ratings for Kansas Nursing Facilities

KDADS is seeking to improve the experience of Kansans while living in a nursing home. To this end, KDADS contracted with National Research Corporation to gather information about satisfaction levels directly from Kansas nursing home residents. This is the second year in a series of annual surveys. Every Kansas nursing home participating in Medicaid and/or Medicare was offered the opportunity to participate in the survey. The surveys were conducted by independent third party interviewers January – February 2015. These qualified and trained interviewers met with the residents in person in a private setting. Interviews were analyzed to ensure that a consistent interview scheme was followed. The results displayed in the report below will assist consumers with information about the satisfaction level of residents living in the facility based on their responses to the survey.

### Excellent + Good scores by quality domains and global satisfaction plus # of responses

The displayed scores represent the total percentage of respondents who answered either 'Excellent' or 'Good' for the domains and global satisfaction items in the columns below.

This is the second year in a series of annual surveys. Every Kansas nursing home participating in Medicaid and/or Medicare was offered the opportunity to participate in the survey. The surveys were conducted by independent third party interviewers January – February 2015. These qualified and trained interviewers met with the residents in person in a private setting. Interviews were analyzed to ensure that a consistent interview scheme was followed. The results displayed in the report below will assist consumers with information about the satisfaction level of residents living in the facility based on their responses to the survey.

### Excellent + Good scores by quality domains and global satisfaction plus # of responses

## 2015 Resident Satisfaction Ratings for Kansas Nursing Facilities

KDADS is seeking to improve the experience of Kansans while living in a nursing home. To this end, KDADS contracted with National Research Corporation to gather information about satisfaction levels directly from Kansas nursing home residents. This is the second year in a series of annual surveys. Every Kansas nursing home participating in Medicaid and/or Medicare was offered the opportunity to participate in the survey. The surveys were conducted by independent third party interviewers January – February 2015. These qualified and trained interviewers met with the residents in person in a private setting. Interviews were analyzed to ensure that a consistent interview scheme was followed. The results displayed in the report below will assist consumers with information about the satisfaction level of residents living in the facility based on their responses to the survey.

### Excellent + Good scores by quality domains and global satisfaction plus # of responses

The displayed scores represent the total percentage of respondents who answered either 'Excellent' or 'Good' for the domains and global satisfaction items in the columns below.
