2016/Q3 AuthentiCare® Kansas Department of Aging and Disability Services Release Notes

Release Date :	November 9th, 2016
Release Time :	6:00 PM CT – 2:00 AM CT
Release Duration :	8 Hours

Note: No IVR down time is expected; Web and Reports may be intermittently unavailable. No extended database outage is expected, however; users may experience difficulties using the AuthentiCare website and reports as database components are updated. Web users should be advised to finish their web-related work, and run any reports prior to 6:00 p.m. CT on November 9th, 2016. The IVR will continue to function normally during the install and will not be turned off.

Item No.	Summary	Benefit
1.	**Editing future occurrences within a series** User was unable to reschedule future events if they were part of the series with past events.	Modified functionality
2.	**Late and Missed Visit screen displaying invalid start date** Late and Missed Visits screen in AuthentiCare web is displaying the start date of the recurring series instead of the actual Late or Missed Event.	Bug fix and minor modifications
3.	**Bug fixes for Calendar tab in mobile app** • Tapping on current day was displaying future day's appointments as well • Calendar will display scheduled appointments for all days of the calendar • Calendar will display open manual check-ins for the current day only	Bug Fix and Minor Modifications
