General Instructions

Purpose
The electronic Adverse Incident Reporting (AIR) form is used to report adverse/critical incidents involving individuals receiving services from agencies licensed or funded by the Kansas Department for Aging and Disability Services.

System Requirements and Browser Settings
- Internet Connection
- Internet Browser:
  - Microsoft Internet Explorer 11 or newer – Recommended, and the only browser that KDADS supports for Web Applications.
  - Other browsers may be used with the understanding that KDADS cannot troubleshoot any issues that may arise using KDADS Web Applications with another browser.

Important
The required fields referenced in this chapter refer to system-required fields. These fields are required in order for the form to be saved. The information that is required due to policy may be different from those that are system required.

All information saved in any KDADS web application or web form is encrypted and secure.
Accessing the Application

How To

Follow the steps in the table below to access a blank AIR form from the KDADS public website.

<table>
<thead>

Creating / Saving the Adverse Incident Reporting (AIR) Form

Introduction

All required fields must be completed before the AIR form can be successfully saved. The initial creation (saving) of the form is done via the 'Create Report' button. When the completed form is submitted to KDADS, the reporting process is complete.

Sample Blank form:
Creating / Saving the AIR Form, continued

How To

Follow the steps in the table below to create a new Adverse Incident Reporting form.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Click on the AIR form link as described in the previous steps.</td>
<td>A blank AIR form displays.</td>
</tr>
<tr>
<td>2.</td>
<td>Enter the information for the incident being reported.</td>
<td>All required fields must be completed before the form can be saved.</td>
</tr>
<tr>
<td>3.</td>
<td>Click on the <strong>Create Report</strong> button (located at the top and the bottom of the form.)</td>
<td>• The report is created, and the data is saved.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• The <strong>Create Report</strong> button no longer displays.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• <strong>Apply Changes</strong> button displays.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• <strong>Submit to KDADS</strong> button displays.</td>
</tr>
</tbody>
</table>

**Note:** Validation errors will display for any missing required information, and the report will not be saved. Enter the missing required fields and click the Create Report button again.

Before the form is created/saved:

**Adverse Incident Reporting**

**Adverse Incident Reporting Purpose**

Effective incident management is essential to ensuring the health and welfare of KDADS program participants. The Adverse Incident Reporting (AIR) System focuses on the identification and follow-up to critical events or incidents that bring harm, or create the potential for harm, to a KDADS program participant. AIR focuses on critical events or incidents that the state itself deems as sufficiently serious to warrant near-term review and follow-up by an appropriate authority.

**Notice**

- **Hotline Phone Numbers and Information**
  - Are you a Mandated Reporter?
  - Once the report is created, an "Upload Supporting Documents" box will display to securely upload any documents related to the incident.
  - The Report needs to be completed and submitted to KDADS prior to closing the window.
  - If you wish to retain a copy, print this form by using the "Print AIR Report" button provided below.
  - User Manuals:
    - AIR Instructions for Providers
    - Quick Reference for Submitting AIR Reports v2

**Report Status:** WORK IN PROGRESS

**Person Reporting Incident Information**

- Reporter To Remain Anonymous: Yes  No  If "Yes" the reporter information will only be housed with the State.
- Report Completed By: First Name: [ ] Last Name: [ ]
- Reporter Phone: [ ] Reporter Email (If Known): [ ]
- Relationship to Individual Involved: [ ]
- Service Provider Name (If Known): [ ]

**Report Date:** [ ]

<td>5.</td>
<td>Additions and/or changes to the report can be made as necessary.</td>
<td></td>
</tr>
<tr>
<td>6.</td>
<td>Click on the Apply Changes button to save any additions/changes made.</td>
<td>Additions/changes are saved.</td>
</tr>
</tbody>
</table>

Form Fields

Refer to the next chapter, Field Descriptions and Requirements if there are any questions about any of the fields in the AIR form.

Uploading Files

Refer to the chapter on Uploading Supporting Documentation to an AIR Report for details on how to attach a file to a saved AIR form.
Field Descriptions and Requirements

The table below lists all the report fields and their purpose. All fields marked with a red asterisk (*) are required. Fields that are conditionally required will be also checked for a valid entry when the form is saved.

<table>
<thead>
<tr>
<th>Field or Button</th>
<th>Action / Purpose</th>
</tr>
</thead>
<tbody>
<tr>
<td>Create Report</td>
<td>Creates the report once all required fields are entered. The button disappears after the report is successfully created, and is replaced by the <strong>Apply Changes</strong> button.</td>
</tr>
<tr>
<td>Apply Changes</td>
<td>Button displays after the report is successfully created. Saves any subsequent changes to the initial data entered.</td>
</tr>
<tr>
<td>Submit to KDADS</td>
<td>Button displays after the report is successfully created. When data entry is complete, clicking on this button will submit the report to KDADS, and the report changes to a read-only status.</td>
</tr>
<tr>
<td>Close</td>
<td>Closes the Adverse Incident Reporting window or tab. Once the window/tab is closed, the report cannot be accessed again by the Reporter.</td>
</tr>
</tbody>
</table>

**Person Reporting Incident Information Region**

- **Report to Remain Anonymous**: If the reporter elects to remain anonymous then no reporter fields will be displayed on any of the Report Detail pages or reports. However, the information will be available if the investigator is associated with the State of Kansas agency.

- **All fields**: Contains the Reporter information and the Provider to which the reporting person is associated.

- **Report Date**: Date the AIR form is filled out. (Defaults to the current date.)

- **Report Submitted Date**: Date the AIR form was submitted to KDADS. (Defaults to the current date.)

Submitting a Completed AIR Report to KDADS

Introduction

Submitting a completed Adverse Incident report to KDADS adds it to the Adverse Incident Listing in the Adverse Incident Reporting (AIR) web application. Only KDADS staff with authenticated web application user accounts have access to the AIR web application, and only those users assigned to the group matching the specified Program Type indicated in each submitted incident have access to those incidents.

How To

Follow the steps in the table below to submit a completed AIR report to KDADS. Note: Supporting Documentation (covered in the next chapter) can be uploaded to an AIR report before or after the form is submitted to KDADS.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>From the completed AIR report page, click on the Submit to KDADS button. Note: Either button, located at the top and the bottom of the page, can be used.</td>
<td>A warning message displays. The form is saved, and all fields are read only. An e-mail is forwarded to the appropriate KDADS staff for review.</td>
</tr>
<tr>
<td>2.</td>
<td>Read the message before continuing!</td>
<td></td>
</tr>
<tr>
<td>3.</td>
<td>Click on the OK button to submit the report and make it read-only. OR Click on the Cancel button to return to the report.</td>
<td>OK = Report submitted to KDADS. No further changes can be made.* Cancel = Return to report to make changes. Report is not submitted to KDADS.</td>
</tr>
</tbody>
</table>

*While no additional changes can be made to an AIR report once it is submitted to KDADS, supporting documents can still be uploaded. See the next chapter for instructions.
Uploading Supporting Documentation to an AIR Report

Introduction

If there is supporting documentation related to the adverse incident being reported, an electronic version of the document can be uploaded to the AIR form. AIR uses the same Attach/Upload File utility that is used by many other KDADS web applications for this purpose.

The Attach / Upload File utility is accessible after the incident has been created, and before the incident page is closed.

Only KDADS staff that have authorization to access the associated AIR report will have access to any uploaded documents attached to the incident.

Sample Blank Form

To Attach / Upload File:

Steps to Upload a File:
1. Click on the "Browse..." button.
2. Browse to the file location.
3. Click on the file and then the "Open" button.
4. Type a unique name in the "Document" field. The "Document" field name cannot contain any special characters, except dash, underscore, slash, or period.
5. Click the "Upload or Delete File" button. The name of the file is automatically added to the list of files in the table.

Source file

File: [file name]

Upload or Delete File

To Delete a File:
1. Only the person who uploaded the file can delete the file.
2. Click on the check box next to the file to be deleted.
3. Click on the "Upload or Delete File" button.

Continued on next page

Source File Requirements

Source File Name: There are specific rules that must be followed in the naming of the source file that will be uploaded. If necessary, rename the source file before you attempt to upload it. The source file name can contain only the following characters:
- Alpha-numeric characters (A-Z and 0-9)
- The following special characters: dash (-), underscore (_), slash (/), and period (.)

Source File Size: The source file (the file you are uploading) has a maximum file size of 100MB. To conserve KDADS file server space, we request that the source files be saved in a way to reduce the file size as much as possible. For example, if you are scanning a hard copy of a file, make sure your scanner is not using too high of a resolution (200-300 dpi should be sufficient.) Be aware of the size of picture files that are uploaded and resize/compress them if possible. If uploading a PDF file and you have Acrobat Pro, there are optimizing features that can reduce the size of the file.

Source File Type: Most file types are compatible with the Attach/Upload File utility. However, be aware that files that are application-specific may not be accessible if the user opening the file does not have that application installed on their computer. For this reason, we recommend the following file types, as they are accessible via multiple image-viewing applications or PDF readers that are common to many business applications:
- PDF (current Microsoft Office applications have a built-in 'save as PDF' option)
- JPG/JPEG (most scanners will scan images to this format)
- BMP (most scanners will scan images to this format. Preferred after JPG/JPEG, as BMP files tend to be larger in size than JPG/JPEG)

Note: Word (.docx) and Excel (.xlsx) files are not compatible with the Attach/Upload File utility. Make sure to save these file types as PDF files before uploading.

How To

Follow the steps in the table below to upload a file to a saved Adverse Incident Report.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Click on the <strong>Browse…</strong> button.</td>
<td>The 'Choose File to Upload' dialog box displays.</td>
</tr>
</tbody>
</table>

Continued on next page
### Uploading Supporting Documentation to an AIR Report, continued

**How To Continued**

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.</td>
<td>Navigate to the location on your computer or organization's network where the file is located.</td>
<td>The desired file name appears in the file list window. Note: Your window may look different based on the file list type you have selected.</td>
</tr>
<tr>
<td>3.</td>
<td>Click on the file you want to upload.</td>
<td>The file is highlighted.</td>
</tr>
<tr>
<td>4.</td>
<td>Click on the Open button.</td>
<td>The file name appears in the Source file field of the Attach/Upload File page.</td>
</tr>
<tr>
<td>5.</td>
<td>Enter a short descriptive name in the <strong>Document</strong> field.</td>
<td>There are no character type limitations for this descriptive name.</td>
</tr>
</tbody>
</table>

![Image of attachment process]

6. Click on the **Upload or Delete File** button.

- The uploaded file information displays in the **Uploaded Files** table, indicating the source file is attached to the AIR report.
- The date and time of the upload is indicated next to the Browse... button, and in the Uploaded Files table.

---

Continued on next page
Uploading Supporting Documentation to an AIR Report, continued

**Important Note**
If the source file you are trying to upload contains invalid characters in the file name or is a duplicate of an existing file within the Upload system, you will receive a message when you attempt to upload the file stating the file has been deleted. The file will not be uploaded and you will need to rename the source file before attempting to upload it again.

**To Attach / Upload File:**

1. Click on the "Browse ..." button.
2. Browse to the file location.
3. Click on the file and then the "Open" button.
   - Uploaded source file name cannot contain any special characters, (except dash, underscore, slash, or period)
   - Uploaded source file name cannot duplicate ANY Uploaded source file name in the system
4. Type a unique name in the "Document field.
   - The "Document" field name cannot duplicate ANY "Document" field name in the system
5. Click the "Upload or Delete File" button.
   - Do not upload ".docx" or ".xlsx" files

   (Save "docx" files as PDFs then upload the PDF file.)

**Duplicate source file and Descriptive Name**

**Upload Multiple Files**
You can upload multiple files to the same AIR report. Repeat the previous steps for each file to be uploaded. The Uploaded Files table will update with each additional file that is uploaded.

**View an Attached File**
After you have attached a file to an incident, you can view it to confirm it uploaded successfully and is accessible.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>To view an uploaded file, click on the 'view' link next to the uploaded file name in the Uploaded Files table.</td>
<td>The file will display automatically, or you may be prompted to open or save the file. If prompted, choose 'Open.' Depending on your browser settings and the type of file that was uploaded, the file will open in either a browser window/tab, or in the application it was created in.</td>
</tr>
<tr>
<td>2.</td>
<td>After viewing the attachment, close the window/tab or the associated application.</td>
<td>The window containing the AIR form redisplay.</td>
</tr>
</tbody>
</table>

Continued on next page
Delete an Attached File

If you discover you uploaded the wrong file, or you decide you no longer want to include the uploaded file with this incident report, you can delete the attachment.

Note: Deleting an attached file does not delete the source file from its original location.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>To delete an uploaded file from an AIR report, click on the check box next to the Document name in the Uploaded Files table.</td>
<td>A checkmark appears in the box, indicating which document is to be removed. <strong>Note</strong>: While documents must be uploaded one at a time, multiple documents can be removed in one delete action.</td>
</tr>
</tbody>
</table>
| 2.   | Click on the **Upload or Delete File** button. | • The attached file is deleted from the AIR report.  
• The Uploaded Files table is updated.  
• A deleted file message and date/time stamp displays. |

**Note**: Only the user that uploaded the file can delete the file.

![Upload or Delete File](image-url)
Printing an AIR Report

Introduction

If the person or organization reporting an Adverse Incident wants to keep a copy of the report, it must be printed before the submitted report is closed. Once closed, the incident is no longer available to the Reporter.

The Print View of Air Report button is provided for this purpose. While the button is available prior to the report being completed, these instructions assume the report will be printed once the form is complete and has been submitted to KDADS.

How To

Follow the steps in the table below to print an Adverse Incident Reporting form.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Recommended browser page settings: Portrait .5&quot; margins Enable Shrink to Fit turned on</td>
<td>Page settings in Internet Explorer are found under File &gt; Page setup… OR File &gt; Print &gt; Page setup…</td>
</tr>
<tr>
<td>2.</td>
<td>Click on the Print View of AIR Report button located at the top or bottom of the submitted form.</td>
<td>A print View of the report displays.</td>
</tr>
<tr>
<td>3.</td>
<td>Click on the Print button.</td>
<td>The report prints to the designated printer.</td>
</tr>
</tbody>
</table>
Close the Submitted AIR Form

Introduction

After the AIR form has been submitted to KDADS, the final step is to close the completed form window/tab to ensure there is no unauthorized access to the form.

How To

Follow the steps in the table below to close a completed AIR form.

<table>
<thead>
<tr>
<th>Step</th>
<th>Action</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Confirm the form has been submitted to KDADS.</td>
<td>The Submit to KDADS button is no longer available.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Report Status will indicate “REPORTED”</td>
</tr>
<tr>
<td>2.</td>
<td>Click on the X on the browser tab button.</td>
<td></td>
</tr>
<tr>
<td>3.</td>
<td>If another report needs to be submitted, click on the Reset Page to Enter Another Report button</td>
<td>The window will refresh, and all fields will be cleared.</td>
</tr>
</tbody>
</table>

[Table and diagram as shown in the image]
