PURPOSE & BACKGROUND OF HEALTH OCCUPATIONS CREDENTIALING (HOC)

Kansas law recognizes 34 health occupational groups for which licensing, registration, or certification is provided. There are 10 regulatory bodies that issued credentials to those professions. Health Occupations Credentialing issues licenses to adult care home administrators, dietitians, speech-language pathologists and audiologists & issues registration to adult care home operators.
Why Licensure?

• The purpose of credentialing a health care profession is to protect the public from the unregulated practice of a profession which can harm or endanger the health, safety or welfare of the public.
HISTORY

• An amendment offered by Senator Edward Kennedy to a bill known as the 1967 Amendment to the Social Security Act, subsequently enacted by the Congress and signed into Law by President Johnson in January, 1968, becoming Public Law 9-248. This law set forth that States participating in the Medicaid (Title XIX) Program were required to establish programs to license Adult Care Home Administrators, effective July 1, 1970.

• As a result of this action the Kansas legislative session of 1969 saw the adoption of Substitute for House Bill 1515, which authorized and directed the State Board of Health to administer the provisions of that act and adopt rules and regulations providing for the licensure of Adult Care Home Administrators.

• The first Kansas Adult Care Home Administrator licenses were issued effective July 1, 1970.
Board of Adult Care Home Administrators

The Kansas Board of Adult Care Home Administrators is composed of seven members, appointed by the governor. Members include:

- Two representatives of professions & institutions concerned with the care and treatment of chronically ill or infirm elderly patients (Health Professionals),
- Two consumer representatives who have no current or previous involvement in the financial affairs or as a member of the governing body of any adult care home or any association directly concerned with the regulation or licensure of adult care homes in the state (Consumers),
- Three adult care home administrators who, at the time of their appointment, are licensed by the state and are actively engaged in the administration of adult care homes within the State of Kansas (Administrators).

Members serve on the board for terms of three years or until otherwise disqualified from serving on the board and may serve up to two consecutive terms.
