

APPLICATION PROCESS FOR
SPEECH- LANGUAGE PATHOLOGY/AUDIOLOGY

It is the desire of the Kansas Department for Aging and Disability Services to make the application process as convenient and effective as possible. Please understand that in all cases the burden of proof in meeting the requirements for licensure is upon the applicant; therefore, you will find it worth your time to carefully review the enclosed information and forms. Receipt of the information necessary to efficiently process and evaluate application is of the utmost importance.

Licensure Standards

- Possess at least a master's degree or equivalent in Speech-Language Pathology or at least a doctorate degree or equivalent in Audiology
- Have completed a Clinical Practicum of at least 400 hours, of which at least 325 were completed at the graduate level
- Have successfully completed a supervised postgraduate professional experience or at least nine months full-time equivalent
- Have scored at least 162 on the NTE Specialty Area test in Speech-Language Pathology or Audiology, administered by Educational Testing Services.

Temporary License

Temporary licensure is for those who have completed a master's degree and at least 400 clinical practicum hours, but have yet to complete a supervised postgraduate experience or the NTE test, or both. The application can be used for either a temporary or full license in either discipline. The fee is \$65.00, the license is issued for one year, and can be renewed for an additional year upon request and payment of an additional fee. **Please note that a temporary license must be obtained prior to starting your supervised postgraduate experience.**

Note: A temporary license may be issued to enable an applicant for reinstatement to complete the continuing education requirement. This license shall be valid for 12 months and shall not be renewed.

Those Licensed in Another State

A license issued by another state may be endorsed if the licensure standards of the other state meet or exceed current Kansas licensure standards. If you are seeking a Kansas license based on endorsement, complete the entire application, provide documentation requested and send the Verification of Out-of-State Licensure form to the licensing board/agency in each state in which you currently or have ever held a license (unless they have an on-line verification site where a license can be verified.)

Completed Application

An application will be processed only upon the receipt of the completed application, supporting documentation and the applicable licensure fee for full licensure or \$65.00 for a temporary license. **Fees are not-refundable. Checks should be made payable to the Kansas Department for Aging and Disability Services or KDADS. Visa or MasterCard may be utilized for payment of fees. If so, the Credit Card Authorization Form must be completed and signed.**

Expiration of License/Renewal – Full Licensure

All full licenses, initial and reciprocity, will expire on October 31 of the year that is less than two years from issuance. Thereafter, the license will expire biennially. Acquisition of 20 hours of CE (30 hours for dual licensure) and the renewal fee of \$135.00 will be required to renewal (K.A.R. 38-61-5).

Note: Each licensee whose initial licensure period is less than 24 months shall be required to obtain not less than one hour of continuing education for each month in the initial licensure period (not less than one and one quarter hours of continuing education for each month for those holding a dual license).

Licensure in Both Fields

Any person desiring a license in both Speech-Language Pathology and Audiology must make separate application for each license and pay the licensure fee for each.

Assistants – Notification Required

All applicants for full licensure that supervise one or more assistants (as defined in KAR 28-61-8) must complete and submit the “Notice of Assistant” form. Paraprofessionals working within the schools are considered assistants, as are assistants employed in all types of health care facilities, clinics or private practice.

If you have questions regarding any phase of the licensure process, please contact Wendy Jacobs at wendy.jacobs@ks.gov or 785.296.0061.
